Resolved system issues are
located in [WHAT'S IMPROVED?](#)

MAILBOXES

CARRIER

- **Feature Description:** IE Mailboxes imported via TMC Files

To improve the speed and ease of your workflow, you can now import state-mandated Information Exchange (IE) mailboxes using a TMC (Transfer Manager Configuration) file in IVANS Transfer Manager 2019. Contact your IVANS Support representative for assistance in loading state state-mandated IE mailboxes to Transfer Manager. Previously, IE mailboxes had to be manually imported.

- **Feature Description:** ALIR Carrier option Mailbox Configuration

To allow you to install and use Transfer Manager 4.1.0 without upgrading from a previous version of Transfer Manager, the ALIR Carrier option is available in Transfer Manager Mailbox Configuration.

IVANS TRANSFER MANAGER

CLIENT

CARRIER AND AGENCY

- When using a proxy server, you can connect to Transfer Manager 4.1.0. Previously, the connection timed out.
